An Apple Orchard: A Good Investment
Dear Sir:

The other day we overheard a man say, "Well that's another case of Maloney luck." He was referring to the fact that we have peach and apple trees when these trees are so scarce.

Maloney luck or Smith luck or anybody's luck we have found generally to be the result of a good deal of careful planning mixed with a good deal of hard work carefully fertilized with experience.

Now the fact of the matter is we prepared for this spring back in 1916. We called upon our 36 years experience in the nursery business and the financial resources we have built up year after year and kept on planting.

Of course we had to pay more for seedlings, more for labor, more for everything, yet we felt that we must absolutely be ready to give our patrons the same Maloney Quality, and now its Maloney luck if you will that we are able to do so.

Its this same kind of luck which has enabled us to build up the largest nursery business in New York State and keep it growing year after year, simply by trying our very best to give every customer satisfaction, satisfaction in his stock, satisfaction in the way it is packed to reach him, satisfaction in the results after the stock is planted.

Needless to say we are going to keep up our reputation for giving satisfaction this year and as in the past your order, no matter how large or how small, will receive my personal attention.

If you have purchased from us in the past you will find that your order will measure up to the Maloney Quality Standard. If stock we ship you is not healthy, vigorous, and up to specifications in every way, you can have your money back.

Yours for satisfaction,

ALBERT E. MALONEY, Pres.
Maloney Service like Maloney trees is the result of careful planning and the experience gained through 36 years of filling orders from our catalogue.

Because we know that the best Service possible is your best guarantee of satisfaction, every detail from the time your order reaches this office until the shipment is on the cars is watched over by trained men and women with years of experience in their own kind of work to make them careful and accurate.

When your order is received, it is acknowledged by our Mr. W. J. Maloney, entered by the bookkeeper, then it is sent to another department where it is copied by a competent clerk. It is then returned to the main office where it is checked, it is then filed in our fire proof vault for shipment according to the date given by the customer.

When the shipping season opens these orders are sent to the packing house to be filled—after the order is ready for shipment, the card is returned to the office where a notice of shipment is sent. Then the card is dated and filed again in our vault where it can be referred to at any time.
Nursery Stock Never So Scarce
Only One-Half Enough to Go Around

It is not generally known by fruit tree planters throughout the United States that seedlings used for propagation of fruit trees are practically all imported from France—this is a fact however—and owing to the War, help originally employed to grow these French seedlings was required for army service, therefore, during the period of the War, help available for this work was indeed very limited, which resulted in cutting down the production at least fifty per cent, consequently the importation of fruit tree seedlings to the United States was only half of the regular quantities used.

Accepting this as the situation, you can appreciate the scarcity of trees bound to exist this Spring—hundreds of small nursery firms throughout the country found it utterly impossible to procure seedlings, so the natural consequence was discontinuation of business.

Therefore there is an alarming tree shortage throughout the United States this spring—only half enough to go around. Conditions will remain about the same for several years or until such time as France gets back to producing its normal supply of fruit tree seedlings.

We have been large seedling importers for many years and so have had a wide business acquaintance with Seedling Growers in France and importers in this country. We used this acquaintance to advantage and by offering top market prices have been able to get a very fair supply and in this way kept up our planting during the past four years.

This is the reason we have been able to list in this catalog, as you will find, an excellent assortment of varieties, which have proven to be the best for both home garden and commercial planting. Those preferable for orchard planting are printed in heavy type and underscored.

We wish to admonish you of the great risk you take when postponing ordering until late—with nurserymen having only fifty per cent as much stock as they sold last spring and the planting increasing because of the high prices being paid for fruit, makes it advisable to order at once if you want any trees for spring planting. This is the true nursery situation for spring planting 1920.

Yours respectfully,

W. J. Maloney
SECRETARY
Maloney’s Way of Selling Saves You Money

Here are the Actual Facts it will Pay You to Consider.

These facts will show you why the agent can not compete with the catalogue house. The agent’s one argument is that if you buy from the catalogue house at a lower rate, you will get inferior stock. Our best answer to that is to refer you to our guarantee, and ask you to have the agent copy this guarantee and sign it himself; then have it countersigned by his firm. Then and then only can he even claim to furnish as good stock as ours.

After he has given you a guarantee of quality equal to ours, the next thing to do is to have him meet our price.

The truth of the matter is, it is impossible for him to sell you trees or plants at our prices for he represents some retail house which buys from the grower, who must make a profit. This we will term profit No. 1. The retail house he sells for must have a profit which is profit No. 2. Then the agent who has big travelling expenses must get a price high enough to cover his expenses, as well as his commission, which is profit No. 3. Therefore the tree which we, the growers, sell to you at wholesale plus one small profit is sold by the agent with three profits, consequently the same tree which we sell direct for 80c. the agent must necessarily sell for $1.50 to $2.00.

You can readily see it is not the difference in quality that causes the difference in price, but it is due to his extravagant system as compared with our improved method of selling direct to the consumer, thus eliminating two profits.

While it may be unfortunate for the agent that the mail order houses are capturing the bulk of the business, we believe the general public should be taken into consideration.

We believe the majority of agents honestly try to give their customers as reasonable a price as they can, but the fact that their trees must pass through so many hands before they reach the consumer puts them in a position where they positively cannot compete with the catalogue house, which sells direct to the consumer without the expense of travelling salesmen or middlemen.
Why It Pays to Plant Maloney Trees
By Our Propagator, A. E. Maloney

JUST where to look for values and what to recognize as defects are the problems that confront private buyers of nursery stock every season. Some soils are better adapted than others to the production of good nursery stock, and the process of growing fruit trees for replanting is not a simple one. In the first place there are but few localities in the U. S. where the work can be advantageously done, for nursery stock requires the best possible soil and the land used for this purpose is held at a very high premium around Dansville.

As to the best stock on which trees should be grafted, many nurserymen disagree. We import all our seedlings on which different varieties are budded directly from France because we have found by experience that the elements existing in the U. S. are not at all favorable for raising seedlings with the full measure of success required. Around January 1st, when these seedlings begin to arrive from France we carefully place them in our root cellars, and throughout the winter see that they are properly trimmed and made ready for planting in the Spring.

We plant them on the upland during the month of April, and all through the Summer months they are carefully cultivated and hoed weekly until early Fall. Budding, which is scientific work and can only be done by experts, is accomplished in the months of July and August. In fact the writer personally, cuts the scions for budding from the best bearing trees, to insure its growth the Maloney way.

The buds are first inserted two inches above the collar of the seedling after which they are carefully tied with raffia. Not until the following Spring is it possible to cut off the seedling just above the bud, as the root has only the bud to support. But by proper cultivation and careful hand work, it is possible to produce a growth of from 4 to 6 feet the first year. When still another Spring arrives, we head these buds to a height of 30 inches, but it takes skilled labor and very careful handling to produce the correct development of these heads.

All this care and expense would avail us little unless our stock is carefully dug, and so important do we consider the digging that we use steam power for the purpose which is the only system that insures our getting all the roots intact for not only good roots, but all the roots are necessary for the proper thriving of a tree. We trust we have given you enough pointers for you to determine "Where to buy nursery stock."

Yours respectfully,

A. E. MALONEY, Propagator,
Why You make no Mistake in Buying from an Old Established Firm

Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen:

The 2712 trees arrived on Friday, the 20th. They were in good condition and most of them have been planted up to date. We hope to finish by tonight. The weather has been good, or rather cold and plenty of moisture.

The Department wishes to express its appreciation for the way in which the trees were packed and also the high quality of stock. Everybody is exceedingly well pleased with the trees and think they are as fine a lot of nursery stock as they have ever seen.

Yours very truly,

F. N. Fagan.

Fredonia, Pa.
Oct. 10, 1918.

Maloney Bros. & Wells Co.,
Dansville, N. Y.

Gentlemen: Enclosed order is for the famous Hepting Orchard of which there are 800 young flourishing trees all of the Maloney Bros. & Wells Product and the finest in this community.

Respectfully yours,

R. W. MOON.

**Planters Admire Maloney Root System**
Plant Maloney Trees According to these Directions and Your Success is Assured

Care of Stock on Arrival—All stock should be planted immediately on arrival; but if not convenient to do so, open bundle and heel roots in the ground, covering them thoroughly.

Plant When the Soil is Reasonably Dry—In such condition as you would when planting corn or potatoes.

Pruning—Roots are sometimes bruised in digging. For best results it is imperative that you trim about one-fifth of the root, making a nice smooth cut, thus removing all bruised ends. Cut back one-half of the limb growth.

Planting—Dig holes deep enough so the trees will be set one inch deeper than they were in the nursery row, and wide enough to admit the roots of the tree to spread out in their natural position. Having dug the hole as directed, let one person hold the tree upright and the other shovel in the earth; fill the hole about one-fourth with the richest dirt, pack it solidly, then put in one pail of water, now fill the hole two-thirds with dirt, pack firmly, then fill up the balance of the hole and pack firmly.

Cultivation—Ten days after the tree has been planted, work around it to keep the soil loose; do this about every two weeks during May, June, July and August.

These planting directions apply to shrubs and roses, as a matter of fact everything except evergreens. When planting evergreens prune the roots only.

The following table shows how the different varieties of apples should be set.

Maloney Hardy Upland Grown Trees Are Incomparable
We Strive to Avoid Mistakes

But in the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree, on proper proof of such untruth to name, to replace the original order or to refund the purchase price. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, productiveness or any other matter.

MALONEY BROS. & WELLS CO. - DANSVILLE, N. Y.

36th Year 400 Acres Capital $60,000.00

No. 1089

STATE OF NEW YORK

DEPARTMENT OF FARMS AND MARKETS
DIVISION OF AGRICULTURE

Certificate of Inspection of Nursery Stock

This is to certify that the stock in the nursery of Maloney Bros. & Wells Co., of Dansville, County of Livingston, State of New York was duly examined in compliance with the provisions of Section 305 of the Agricultural Law and it was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose Scale or other injurious insect pest or pests. This certificate expires September 1st, 1920. Dated, Albany, N. Y., September 3, 1919.

CHAS. S. WILSON, Commissioner of Agriculture.

Our References:

After visiting the farms, packing-houses, nurseries and office of Maloney Bros. & Wells Co., I wish to say that I have known this firm for years, in fact, from their entrance into the nursery business, and have watched their wonderful and rapid advancement, which is largely due to their careful painstaking attention, and believe that it is generally understood they are New York State’s largest nurserymen.

It is with pleasure that I recommend them to the planter and fruit grower of the United States for I know when you purchase of Maloney Bros. & Wells Co., you are absolutely assured of a square deal.

Signed:—

JOSEPH STIEGLER,
Mayor of Dansville, N. Y.

An Apple Orchard with Maloney Upland Trees a Good Investment

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

Why Planters are More Successful with Maloney Quality Trees. Because we aim from the very beginning to give our patrons the most that can be had for the money. Too many Nurserymen economize by propagating on Western grown seedlings. No nurseryman can conscientiously do this for he well knows that Western seedlings are more or less troubled with that harmful crown and root gall. We eliminate this feature by importing our seedlings from France. Any of your inspectors will tell you that trees so propagated are longer lived and will net you greater returns. It is not so surprising after all that Maloney Quality Trees are being planted by thousands in every state in the Union east of the Rockies.

Apple Trees should be planted on elevated ground rather than in a hollow or low ground, and they require fertile soil, such as is needed for corn and wheat.

Summer Varieties

**Early Harvest.** Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. Middle to end of August.

**Golden Sweet.** Large, pale yellow, tree a good grower and very productive. August to September.

**Red Astrachan.** Tree hardy and regular bearer, a very vigorous grower; fruit large, roundish, nearly covered with deep crimson overspread with a thick bloom; juicy, rich and beautiful. This fruit commands the best price of all the summer varieties. July and August.

**Sweet Bough.** Large, pale yellow; sweet, tender and juicy. Tree a compact grower and abundant bearer. August.

**Williams Early Red.** Medium sized; dark red, sometimes yellow splashed; flesh is crisp, tender, juicy and sub-acid. Ranks above all but one or two of this class. Fine in Delaware and the South. Use it—it is a money maker where you can ship to markets in hampers without delay. It is ready for market just about the time people are growing hungry for new Apples, and it brings top prices. August.

**Yellow Transparent.** Medium size, roundish, oblate; slightly conical; skin pale yellow when fully matured; flesh tender, juicy, sprightly, sub-acid; good. August.

**Autumn Varieties**

**Alexander.** Of Russian origin. Large, deep red or crimson; flesh yellowish white, crisp, tender, with pleasant flavor. Tree very hardy. October.

**Autumn Strawberry.** Medium, streaked, tender, juicy, fine, vigorous and productive. September to October.

**Duchess of Oldenburg.** Summer. Medium size; red striped; flesh white, juicy and excellent flavored. Trees are natural dwarf growers make fine fillers; require small root and branch space. Crops nearly always large. One of the important varieties for all sections north of Mason and Dixon line. Thrives and yields well of high-grade fruit at all elevations in Pennsylvania, New York, Ohio and other northern states. Trees among the hardiest and one of the few that will stand the climate of Iowa, Minnesota, Montana, and other cold locations. You can depend on Duchess to yield Apples you can sell for good prices. August and September.

**Fall Pippin.** Very large, yellow, tender, juicy, and rich. Fine in all localities; tree vigorous. September and October.

**Gravenstein.** An attractive and excellent quality apple. Fruit large and uniform in size, skin thin, tender greenish yellow overlaid with dark red. September to November.

**Maiden’s Blush.** Large, flat; pale yellow with a red cheek; beautiful; tender and pleasant, but not high flavored. Tree an erect grower, and a good bearer. A valuable market apple. September and October.

---

**Apple Yield per Acre**

**Plant Maloney Trees—Hardy Upland Grown, for Best Returns**

The average yield per acre of a good orchard under intelligent management with mature trees is

$250 Bbls. @ $7.50--$1875.00

---

**Pound Sweet.** A very large, round, yellow russet apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October and November.

**Pumpkin Sweet.** Very large; yellowish russet, sweet and rich. Valuable. October and November.

American Blush. (High Quality Red Winter Apple). Here is an apple that is not surpassed the world over for large size, great beauty of color, or for excellent quality. Fruit large, roundish; color bright red on yellow skin; flesh yellow with a fine, rich, aromatic flavor, sub-acid. The tree is a vigorous grower, and is exceedingly productive, bearing an abundant crop of fruit every year. November to January.

Baldwin. This is the leading commercial variety in the American markets. It is to apples what Elberta is to peaches and Montmorency is to cherries. One of the best storage apples for export trade. Thousands of barrels of this fruit are exported to England annually. Baldwin is planted extensively and succeeds wonderfully well in all states east of the Mississippi. No variety yields larger crops, bears shipment better or is more attractive in colors size and shape. It is highly esteemed for an eating and cooking apple. Fruit large, bright red, crisp, juicy and rich. Trees vigorous, upright and productive. For a commercial orchard, it can be relied upon. If ever in doubt what kind of apples to plant, select Baldwin. It should be in every orchard. December to March.

Belleville. Adapted to the northern and middle states; highly esteemed for its excellent dessert qualities. October to February.

Bolken. Annual bearer, vigorous grower. Fair size, hardy; bears young, very attractive and regarded as one of the most valuable apples of recent introductions. November to March.

Bolken

GRIMES’ GOLDEN

Year After Year Maloney Service Improves

Wilkesbarre, Pa., Apr. 20, 1919

Gentlemen: I received the goods purchased from you yesterday, and will say that I was surprised to find them in such good condition upon arrival.

All are planted in accordance with your instructions as stated in your catalog. The stock is the most healthy and vigorous looking I have ever seen coming from a grower.

Very truly yours,

FRANK B. DOWNING, Sr.

Ben Davis. is hardy and attractive, succeeds wherever apples are grown. There is no apple that has more favors on account of its hardiness, productiveness, beauty and endurance in shipping. It is excellent for cooking. There are better apples but where Ben Davis succeeds one can always be sure of success, owing to its regular and heavy bearing qualities. The fruit is thick-skinned, does not show bruises easily, and presents a good appearance in the package after being handled and shipped in the ordinary way. November to April.

Delicious. No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy with a delightful aroma; of very highest quality, A splendid keeper and shipper. Tree one of the hardiest. November to April.

Fameuse. (Snow Apple). Medium size; deep crimson; flesh snowy white, melting and delicious, one of the finest dessert fruits and valuable for market; a good baking apple. Oct. to Dec.

Gano. An improved Ben Davis, adding to the good qualities of that variety a much handsomer fruit of deep, dark red, that brings a ready sale in market. December to March.

Gilliflower. (Black,) An old dessert apple; tree a good vigorous grower and a reliable cropper. October to February.

Grimes’ Golden. Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Tree is very hardy and productive, and one of the best fillers, as it comes into bearing very early. Grimes Golden is one of our few best sorts. December to April.

Hubbardston Nonesuch.

Large, striped yellow and red; flesh yellow, juicy and tender, with an agreeable flavor of acidity and sweetness; of the finest quality and very valuable; strong grower; bears well every year; comes into bearing early. You will find it a splendid orchard tree for New York and Pennsylvania. November to March.
This spreading, flesh June. always Fruit color, Unequalled yellow Northern McIntosh Newtown grained, § well apple. recognized November beauty Tree rich, quality size, it is — being November to December. Blossoms Tree rich, escaping first January. Life will make no mistake in — adding it to your list. December to April.

Mammoth Black Twig. Resembles a large W. Red. A very profitable variety to plant for market. It is productive and a long keeper. If a late winter apple is desired you will make no mistake in — adding it to your list. December to April.

McIntosh Red. An exceedingly valuable, hardy, attractive apple; good size; nearly covered with red. Flesh white, fine, very tender, juicy and refreshing. Tree hardy, vigorous, a good annual bearer — comes into fruiting early, yielding large crops. Mr. Maloney recommends this variety to our patrons as one of the best used as a filler. The hardiness of both tree and fruit and its great early bearing qualities, coupled with its elegant color and splendid flavor, makes it a most valuable apple. Do not overlook McIntosh when selecting varieties for commercial orchard planting; has no superior as an early winter apple. October to January.

Newtown Pippin. Medium to large; yellow delicious flavor; a long keeper. Known throughout Virginia as Albemarle Pippin. November to May.

Northwestern Greening. A round, large, attractive, greenish yellow apple; flesh fine grained, juicy, firm, good quality. October to April.

Northern Spy. A hardy, large, red, winter apple. Flesh juicy, rich, crisp, tender, aromatic, of good flavor. Tree very healthy, strong grower rugged. Blossoms very late, escaping frosts. Its large size, handsome appearance and superfine quality give it first rank for fancy trade, and when well grown and properly packed, it sells for higher prices than any other winter apple. It retains its crispness and high flavor well to the end of its season. Dec. to Mar.

Rhode Island Greening. This apple has a recognized standing, both in domestic and foreign markets and sells readily for good prices. It is regarded as the very best cooking apple grown and also excellent for dessert use. Size large. Flesh yellowish, firm, fine grained, crisp, tender, juicy, sprightly sub-acid, very good. Skin grass-green to yellow, sometimes with brownish-red blue. Tree large, strong, vigorous, wide spreading. Ripens in December, keeps until April.

Rome Beauty. Large, round; mottled and striped in different shades of red; flavor and quality way above the average; appearance and size are its valuable points; always sells and always brings good prices. With an established reputation due to real merit. Good grower; blooms late; bear heavily every year. Adapted to a wide range of soils, elevations and conditions. In Ohio, Pennsylvania, New York, West Virginia and Maryland, will make more money than some of the sorts which are now a large part of the total number of trees in commercial orchards. Reliability, due to being frost-proof, strong-growing and sure-bearing, make it a favorite with the grower.

Smokehouse. Fruit medium to large, uniform size and shape. Color yellow or greenish mottled with rather dark red, sometimes deepening to a solid bright red. Oct. to Mar.

Spitzenburg. (Esopus.) Unequalled for its high rich flavor, color deep red; flesh yellow, crisp, rich and excellent. Dec. to Mar.

Stayman’s Winesap. Medium to large, attractive; green and yellow, almost hidden by dark red stripes; flesh yellow, not in the least mealy; plenty of juice; quality the finest. Tree a quick and large grower, bears young, often producing a barrel to a tree when five years old. Bears very large uniformly heavy. You cannot find a better sort, either for bearing h. bit, size of fruit, looks or quality. Except at the highest elevations, is almost always our most desirable apple for east of the Mississippi. Do not hesitate to plant Stayman’s Winesap. Dec. to Apr.

Sutton Beauty. Tree vigorous, bright, spreading, fruit uniform in size and shape, fine grained, crisp, tender, very good. Color bright red striped with carmine. Nov. to Mar.

Tolman Sweet. Medium size; color, light yellow; flesh white, firm, rich, and very sweet. Excellent for winter baking. This is the old favorite, highly prized for baking, etc. Productive, an early bearer, long keeper. Nov. to Apr.

What-Where-When and How to Plant
This book deals with only common practices and simple methods adopted by practical planters. A splendid book for the amateur.

Price 25 Cents, Postpaid.
Wagener. (Red Winter Apple) Wagener is one of the most beautiful winter apples ever grown. It is of the highest quality, the flesh being crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. It succeeds well East and West. No orchardist's list of varieties can be complete without this beautiful and superior flavored apple. Of medium to large size; flesh firm, sub-acid and fine quality. Dec. to May.

Wealthy Apple. A patron writes that from 450 Wealthy apple trees five years old, he picked three bushels of apples. Wealthy is one of the best red early winter apples. Owing to its early bearing qualities it is planted largely as a filler. Its extreme hardiness makes it a valuable variety for the Eastern States and is considered to be one of the best all around early winter apples to grow. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. This variety is particularly valuable for cold climates because the tree is very hardy. Wealthy is being planted largely for commercial purposes as a filler in many sections. Oct. to Jan.

Winesap. Large, roundish, oblong; deep red color, with a few streaks and a little yellow ground appearing on the shady side; flesh yellow, firm, crisp, with a rich, high flavor; quality very good, and highly esteemed in the South and Southwest. Dec. to May.

Winter Banana. Fruit large size, perfect in form; golden yellow, and beautifully shaded and marbled with bright, crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Tree remarkably strong grower, and on account of its great hardiness, will thrive in any climate. Its early bearing is something simply wonderful, generally producing a fine crop the first year. A valuable market variety. Very popular especially in New York and Pennsylvania. Nov. to Jan.

Wolf River. Fruit is very large, some specimens weighing 27 ounces; flattened, conical, highly colored. An excellent cooking apple. Sept. to Dec.

York Imperial. A fine, hardy, large, red, winter apple; succeeds over a wide range of country. It comes into bearing at four years from planting, bears regularly and heavily. The fruit is of medium size, skin yellow and almost wholly covered with two shades of red, the darker ones disposed in distinct stripes. Splendid variety for Pennsylvania. Nov. to Feb.

Best Hardy Crab Apples

General Grant. Large, round, yellow, covered with stripes of red, and when exposed to the sun, turning quite dark; flesh white, fine grained. Sept.

Hyslop. Fruit large, deep crimson; produced in clusters; flesh yellow, sub-acid; and popular on account of its large size, beauty and hardiness. Oct.

Transcendent. This is probably one of the best of all crab apples, is popular over the entire country. It is perfectly hardy everywhere and an immense bearer, yielding large crops every year. It is also a rapid grower and often bears fruit three years after planting. The fruit of this crab is held in great esteem by housewives for making jelly. Fruit, bright yellow, striped with red. Sept. to Oct.

Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: Enclosed please find photograph of your four year old Stayman's Winesap full of fine fruit. Yours very truly,

F. F. FEIDLER,
Westminster, Erie, Pa.
Five Acre Orchard

At least should be on every farm for it will net many times over more than any other planting or crop of equal acreage, and add very materially to the value of your farm.

You will realize its true worth if ever you offer your place for sale—it requires little attention the first few years until established, after which occasional trimming out of limbs and so forth is all that will be necessary.

Fruit will bring high prices for many years as it is up to us to supply the fruit not only for our country but the foreign countries as well.

You will save money by planting this spring, for the scarcity of seedlings during the past three years is bound to keep prices up. *Plant this Spring.*

We have an excellent assortment of fruit and ornamental trees, vines, shrubs, roses, berries and so forth for this spring’s delivery—all upland grown, hardy, healthy and vigorous.

For thirty-six years our nursery business has been constantly growing—at first we sold only to men who visited our nursery—then word of mouth advertising from friend to friend brought us orders from strangers. Today through satisfied customers and advertising the great volume of our business is done with people who only know us through this catalogue.

We would like to have you visit our 400 acre nurseries. We would like to have you call on any man or business house in Dansville and ask about us—our ideals, our responsibility, our reputation. However, as the majority of our customers can not come in person, we ask that you read the opening pages of this catalogue, which are written to show you why Maloney Quality plus Maloney Personal Service has gradually in the past thirty-six years built up the largest nursery business in New York State and why it means more this year than ever before to the buyer of Nursery Stock.

*Crop of Baldwin*

Baldwin is a sure and heavy yielder, succeeds over a wider range of territory than any other variety.

**Parcel Post.** First class 3 ft. small size trees sent by parcel post, postage prepaid, for 50 cents each, $4.50 per 10.

6% Discount on all Cash Orders received before April 10th. 3% after that date.

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

**Peach Growing is Today a Great Industry.** In all probability more peaches are being planted annually than any other fruit. The comparative ease with which Peach trees may be cultivated, their freedom from disease, the short period before they come into bearing, together with the wonderful demand for the fruit, and the facility with which it may be shipped to markets, make peach growing extremely profitable.

**Soil.** Peach trees will succeed on any kind of rich soil, but will not thrive on clay, nor damp, low land.

Belle of Georgia. Very large, white Peach with red cheek. The flesh is white, firm and of fine flavor. Tree rapid grower and very productive. July Free.

Carman. Fruit large, color creamy white or pale yellow with deep blush; flesh tender, fine flavor and quite juicy; very hardy and productive every year. This is a favorite variety with many growers, as it is one of the most profitable varieties ever introduced. The fruit stands shipping so well that it always reaches market in prime condition, and its handsome appearance causes it to bring the highest prices. Early Aug. Free.

Chair's Choice. Has no superior in quality and flavor, and for profit is without a rival; large, yellow, free, rich in color, flesh very firm, ripens after Smock; great bearer. Oct. Free.

The average yield per acre of a good peach orchard is 600 crates at $1.50 per crate — $900.00

Crawford's Late. Fruit of large size; skin yellow, or greenish yellow, with a dull red cheek; flesh yellow; tree vigorous, moderately productive. Last of Sept. Free.

Crawford's Early. A magnificent large yellow peach, of good quality. Tree vigorous and very productive. Its fine size, beauty and productivity make it one of the most popular sorts; no other variety has been so extensively planted. First of Sept. Free.

Champion. Fruit large, beautiful in appearance; flavor delicious, skin creamy white, with red cheek; valuable for commercial orchards, extreme hardiness and splendid quality make it a favorite. Late Aug. Free.

Engle's Mammoth. Large, round, subtle slight; yellow with red cheek; flesh yellow, stone small, free; sweet, rich, juicy. Sept. free.

Early Rivers. Large, light straw color with delicate pink cheek; flesh juicy and melting. Early Aug.

Deal Direct the Catalog Way and Maloney Service Will Satisfy You.

Pottstown, Pa.

Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: I received my order of trees from you and they were in fine condition. I think they were as fine trees as can be raised. I planted them the same day and every one is growing fine.

Yours truly,

Horace Swavely.
Elberta. The leader of all peaches and the
greatest commercial variety on the
market; 50 per cent of the peaches planted
are Elberta. In all probability no peach will
succeed over so wide a range of territory as
this kind. It will thrive where any peach
can be grown. A beautiful peach of good
quality, not only the best orchard variety,
but also valuable for planting in the garden.
Elberta is hardier in bud than many varieties,
therefore a more uniform cropper. It is
large, yellow, with red cheek, juicy and high
flavor; flesh yellow, free stone. Season
medium early, following quick upon Early

Fitzgerald. It is one of the hardiest
peaches, both in bloom and
tree; very prolific, large size. First of Sept.
Free.

Foster. Large, deep orange red, becoming
very dark red on the sunny side; flesh yellow,
very rich and juicy, with sub-acid
flavor; earlier than Early Crawford; very

Greensboro. A valuable variety; color
greenish-white, shaded and
splashed with dark red, very hardy and not
so subject to rot as are most early varieties.
Owing to extreme hardiness of both tree and
bud we recommend it for sections where
other varieties do not succeed. Late July.
Free.

Hill's Chili. Fruit medium size, oblong; skin
yellow, shaded with dark red; flesh yellow;
very rich and sweet. First of Sept.

Hale (New Yellow) (Freestone). This
notable new variety of peach is very large in size. In color it
is a deep golden yellow overlaid with bright
carmine. The flesh is deep yellow, fine grained
with a very delicious flavor. Late Aug.

Kalamazoo. Large, golden yellow, with
crimson cheek; flesh thick yellow, superb
quality, small pit. Strong grower, early
bearer, hardy and productive. First of Sept.
Free.

Mountain Rose. Large, red, white flesh,
juicy and excellent.

Early Aug. Free.

Niagara. Tree hardy, healthy in leaf and
bud and bears abundantly. Fruit
large, oval, yellow with brilliant red cheek.
The stone parts freely from the flesh. Flavor
rich and delicious, far ahead of Elberta in
this respect. It is indeed a rival for this
famous peach. Season is medium early,
coming in just before Elberta, overlapping it
one week. Last of Aug.

Old Mixon Free. Large, roundish, yellowish,
white, marked with red. Early Sept.

Salway. Large roundish ovate yellow, with
a crimson cheek; flesh deep yellow, red at
the pit; sweet, juicy, good. Late. Valued
as one of the best late peaches for market.

SWEET AND SOUR CHERRY ON MAZZARD ROOTS SAME PRICE

PARCEL POST. First class 3 ft. trees sent by parcel post, postage prepaid, for 50 cents each, $4.50 per 10.

6% Discount on all Cash Orders received before April 10th. 3% after that date.

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

How to Plant—For your information cherry roots must not be given much sun or wind exposure—either are just as harmful as a heavy frost. You would not think of leaving them out over night uncovered. It is just exactly as necessary to protect them from sun and wind.

Where to Plant—On any kind of land, other than wet. They will thrive beautifully on a sandy or gravelly soil.

Requires Least Attention of all Fruits, because it has been demonstrated beyond question of doubt that scale cannot live on cherry.

The World War has crippled all nurseries, consequently, not only our nurseries, but all nurseries throughout the United States are short of fruit trees. Order early and avoid disappointment.

Maloney’s Prepay Transportation Charges. See Page 9.

DANSVILLE N.Y.

Sweet Cherries

Black Tartarian. This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

Bing. This valuable new black cherry succeeds everywhere. Tree very thrifty and upright grower, very hardy and productive, flesh very solid, flavor of the highest quality, a fine shipping and market variety. It is one of the most delicious sweet cherries. This valuable cherry should be followed by Lambert, which is later in ripening. Both are grand cherries. July.

Centennial. A large, light colored sweet cherry; flesh very firm thus making it one of the most valuable of the sweet varieties for shipping. Resembles Napoleon in appearance, of which it is a seedling, but it is larger and more oblate in form. Tree a handsome grower. Its sweetness is very pronounced, being exceedingly sugary. July.

Dikeman. Fruit large, black, firm, of excellent quality, fine keeper and shipper. Early Aug.

Governor Wood. One of the best cherries; very large, light yellow, marbled with red; juicy, rich, and delicious; tree healthy and a great bearer; hangs well on the trees; vigorous. Last of June.

Lambert. A fine sweet variety originating in Oregon, and one of the largest of all cherries, dark purple red, turning almost jet black when ripe. Flesh firm, rich, juicy, tree rugged, strong grower and an enormous bearer. The growing of the sweet Cherry is a great industry and fairly well begun. There is an enormous market for the fresh fruit and when canned or preserved the markets of the world are open to the producer. Late July.

Napoleon. Tree medium size, erect with roundish head, fruit borne generally in twos, very large oblong, cordate, light lemon yellow with red cheeks in the sun. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Ripe about June 20th.

Schmidt's Biggarreau. The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy with a fine, rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market. July.

Windsor. A splendid, large, livery-colored Cherry that hangs a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

Yellow Spanish. Large, pale yellow, with red cheeks; firm juicy and excellent, one of the best light-colored Cherries; vigorous and productive. Last of June.

Maloney's Prepay Freight and Express Charges

We prepay transportation charges on all cash orders of $7.50 or more received during the entire spring season of 1920 to all points in the following states: New York, Massachusetts, Rhode Island, Connecticut, Maine, New Hampshire, Vermont, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, Michigan, Illinois.

To all other points we prepay one-half transportation charges.

All orders of $7.50 and up to $35.00 will be delivered by Express Prepaid. Those of $35.00 and up will be delivered by Freight Prepaid.

THE PRICES QUOTED IN THIS CATALOGUE ARE FOR THE ACTUAL COST OF THE STOCK DELIVERED.
Sour Cherries

Baldwin. Fruit very large, almost round, dark red, slightly sub-acid, the sweetest and richest of the Morello type. Remarkable for earliness, quality, vigor, hardiness and productiveness. June.

Dyehouse. A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies and especially for canning it has no superiors among cherries. Early June.

Early Richmond. This is one of the most valuable and popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head exceedingly productive. Fruit is medium size, round and dark red. The flesh tender, juicy, and sub-acid. Ripens in June.

English Morello. Without doubt one of the most valuable of this class. Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. August.

Louis Philippe. Large and beautiful fruit of blackish red, flesh tender, mildly acid, good to best. Mid-July.

May Duke. Large, red; juicy and rich; an old, excellent variety; vigorous, productive. June 15.

Montmorency. A beautiful, large, red cherry; much larger and firmer than Early Richmond, and fully ten days later in ripening. Being extraordinarily prolific and very hardy, it can be recommended as a variety of great value. Valuable for canning and preserving. A patron writes that six years ago he planted fifty Montmorency cherry trees from which he has just harvested $150 worth of fruit. One acre of Montmorency cherries, owned by a neighbor, has returned an average annuity of over $600 for the last ten years. This cherry is in great favor wherever cherries are grown. With such a heavy demand for this variety, we would suggest that you order early. Last of June.

Olivet. A new Duke of French origin. Unlike most others of this class, it is said to be very early and to ripen over a long period. Fruit very large. June.

Ostheim. A hardy Cherry from Russia. It has been tested in the severest winters of Minnesota, and has been found perfectly hardy. Fruit large. July 15th.

Vladimir. Hardy, strong grower, very productive, sub-acid, of excellent quality, juicy. July 15.

Wragg. Much like English Morello. More productive and excels in size, yield and quality. One of the hardiest Cherries and has produced annual crops at the northern-most limit of Cherry culture. Aug.

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plum trees are planted about as far apart as peaches; that is, from 15 to 18 feet apart each way. Many growers prefer to plant them closer one way than the other, and eventually to stop cultivation in one direction. If this system is used they may be placed 18 to 20 feet apart one way, and from 10 to 12 feet the other way. The trees are pruned the same way that apple trees are, when planted.

**Bradshaw.** A very large and fine early plum, dark violet red, juicy and good. Very productive; valuable for market. The tree is very hardy and vigorous. Middle of August.

**Fellemberg Prune.** A fine prune, oval; purple; flesh juicy and delicious; parts from the stone; fine for drying; tree very productive. Early Sept.

**German Prune.** Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. September. Sells for higher prices in market on account of high quality. A leading favorite. There is no easily grown fruit that gives greater or more certain profit than the German Prune. Early Sept.

**Grand Duke.** One of the best late plums for market, as large as Bradshaw, of same color, entirely free from rot. Last of September.

**Gneil.** This is one of the newer varieties originating in New York state. The color is a dark purple. The flesh is firm, sub-acid and agreeable. Size large. September.

**Imperial Gage.** Rather large; oval; greenish; flesh juicy; rich and delicious, parts from the stone. Tree a vigorous grower; very productive and one of the best of plums. Middle of August.

**Lombard.** It is a handsome reddish plum, the flesh yellow, juicy and pleasant. It is an excellent variety and can be relied on for a crop when other varieties fail. August.

**Moore’s Arctic.** Fruit grown in clusters. Color dark blue or nearly black when fully ripe. Dr. Hoskins says this is the hardiest plum he has tested. September.

**Maloney Prune.** We are offering it this year at same prices as other varieties. Season extending from September 15th until freezing weather. Color dark blue; flesh yellow and delicious; freestone; heavy annual bearer. It certainly is a marvel—just what the orchard man has been looking for.

**Niagara.** Red, large size, making an attractive appearance in market, and possesses good shipping qualities. It bears enormous crops of fruit. Tree is an upright grower, vigorous and healthy. Middle of August.

**Reine Claude.** (Bavay’s Green Gage)—Roundish, oval, greenish, marked with red in the sun; a great favorite. September.
**Shipper’s Pride.**
Large, nearly round; dark purple; quite juicy, sweet; splendid shipper and marketer; moderate grower; productive. Originated in northwestern New York. September.

**Shropshire Damson.**
One of the favorite Damsons. Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

**Thanksgiving Prune.** Very productive, good quality and long keeper. It will keep for weeks and months after picking like an apple. It is extremely hardy, as a matter of fact, will succeed in any state east of the Rockies; absolute proof against severe winters. Mr. Maloney especially recommends this variety to you. October.

**York State Prune.** One of the largest, best in quality and most productive of all prunes; large size, color dark blue, covered with purple black, delicious; originated in Dansville, N. Y.; a vigorous grower and hardy. Is being planted extensively and is considered the best for commercial purposes. Last of August.

**Japan Plums (Continued.)**

**Climax.** Tree extremely vigorous, upright, with strong branches and very large leaves. Productive as Burbank, about as large and usually two or three weeks earlier. July.

**Red June.** The great early market Plum. Medium to large; deep vermilion red, with beautiful bloom; very showy; flesh light lemon-yellow, firm, slightly sub-acid, delightful. It is the best in quality of any of the early Japanese plums, free from rot. Ripens in early August.

**Wickson.** This, largest of the Japan Plums is superb in every way. The color is bright cherry-red, covered with a light bloom; the pit is small for so large a fruit, the flesh is thick, sweet, tender and rather dry, indicating good keeping and shipping qualities. The fruit sells almost on sight. September.

**Japan Plums**

**Abundance.** One of the best Japan Plums. The tree a rapid grower, healthy, comes into bearing remarkably young and yields abundantly. Fruit of medium size, large when thinned; amber; with markings of red; juicy, sweet, of good quality when well ripened. May be picked when it begins to color; will keep a long time. Aug.

**Burbank.** is decidedly the best of Japan varieties unsurpassed for beauty and productiveness, as well as a very hardy tree with foliage so perfect as to contribute in an essential degree to its health. One of the grand points about the Burbank is that it succeeds over a wide range of our country, and will stand the most severe winters. Fruit large, oval, with a reddish purple skin; flesh yellow, juicy and good. A good one. August.

For the convenience of our customers, we have printed in heavy type the names of the best and most profitable varieties.

The planting of Pears is on the increase, so much so that it has been difficult for us to supply the demand. This is especially true of Bartlett, Clapp's, Kieffer and Seckel which are the leaders and in the order as named.

Soil. Pears will succeed best in a clayey soil, although any good heavy soil will do, but avoid planting on sandy loam.
Bartlett. Large, coloring when fully ripe to waxen yellow with red blush; juicy, melting, highly flavored, a most delicious fruit; tree bears early and abundantly. We have sold many large orchards of this variety. The fruit ripens just at a time when there is but little competition; in fact, there is no pear ripening at the same time that is in the Bartlett class. It might surprise you to know—nevertheless it is a fact—that there are more of this variety planted than all other kinds of pears combined. That speaks for itself, does it not? You will never make a mistake when planting Bartlett. Sept.

Beurre D' Anjou. This is one of the best known, most popular and profitable late pear. The tree is a vigorous grower, hardy and prolific. The pears are of large size, green in color, but often yellowing when thoroughly ripe. They are very juicy and luscious and of the best quality. For late fall and very early winter use, we have no better variety. Oct. to Jan.

Beurre Bosc. A large and beautiful russet pear, very distinct with a long neck; melting or nearly so, highly flavored and delicious, bears well, ripens in October. The demand has been so heavy we have been unable to offer two year trees of this variety, selling all at one year old. We will have an exceptionally splendid lot of sturdy one year buds 3 feet and up for this spring's delivery.

Clapp's Favorite. This is without doubt the most productive Pear on the market. A superb long yellow Pear, richly flushed with russet-red next the sun. The flesh is fine-grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. It is as hardy as the Flemish Beauty; a fine grower and extremely productive. Early Aug.

Duchess D' Angouleme. A most dependable cropper, often fruiting the first season after planting. Fruit large, frequently weighing a pound. A dull greenish yellow, spotted russet, flesh white, rich and good quality. An all around profitable market pear. Sept. and Oct.

Flemish Beauty. Considered one of the hardiest and best for the northwest in which location it bears great crops of perfect fruit. Sept. and Oct.

Kieffer. Large, rich, golden yellow, sometimes tinted red on the sun-exposed side; fair quality, excellent for canning. It has become a profitable market variety on account of its good shipping and keeping qualities. To properly ripen should remain on the trees until leaves begin to fall, then gather carefully and allow to ripen in a cool dark cellar, or other place of even temperature. Tree a most vigorous grower, an early bearer, one of the most resistant to blight, very prolific, and widely planted throughout the country. The tree is so hardy and free from insect pests as to give it greater value than most other varieties. The fruit is of high color and great beauty and sells more readily than fruits of better quality. Oct. to Nov.

Lawrence. Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter Pear. The tree is hardy, healthy and productive, bearing large crops annually. Nov. and Dec.

Maloney Hardy Upland Grown Pear Trees Are Practically Immune From Blight.

The Average Yield Per Acre of a Good Pear Orchard is 500 Boxes @ $4.00—$2000.00.
Sheldon. A large, round, russet and red pear of very fine quality, melting, rich and delicious. Tree vigorous, erect and handsome, bears well and should be more largely planted. Oct.

Seckel. A beautiful and delicious little pear that is the standard of excellence in its class. One of the richest and highest flavored Pears known, always in demand for desserts and luncheons and better known than any pear of its class. The tree makes a somewhat slow but stout and erect growth. Sept. and Oct.

Vermont Beauty. This is one of the newer varieties, but one which should not be overlooked when picking out the different kinds you want to set. The tree originated in Northern Vermont and is very hardy and thrifty. October and November.

Wilder. One of the very earliest pears, attractively colored and of excellent quality; this new variety always finds a sale in market and is largely grown by commercial orchardists. Of medium to large size, irregular, bell-shaped, but with smooth surface; pale yellow with shadings of russet-red. The tree bears good crops early and annually. Early August.

Nursery Stock Scarce—Order Early.
If the farmer makes his purchases direct from the nursermen, he will save expense of middleman or agent, and is less liable to the mistake and injury that may occur through repeated handling.—United States Department of Agriculture, Farmer’s Bulletin No. 113.

Both Large and Small Orders Receive Personal Attention

There is an alarming tree shortage throughout the United States this Spring—only half enough to go around. Conditions will remain about the same for several years or until such time as France gets back to producing it’s normal supply of fruit tree seedlings.

Rehoboth, Mass., Nov. 1, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: The shipment of trees came through all right today and I am much pleased with them. They seem to be first class in every respect. When I need anything more in your line I will send you another order. Thanking you for your attention I am,
Yours truly,
Alfred E. Carter.

Stoyestown, Pa., May 13, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: Received trees and they were in good condition.
Yours truly,
George A. Stahl.

North Braddock, Pa., April 21, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: Received my order and am well pleased with same as everything is o. k. as ordered.
Yours truly,
Mrs. Henry Kaje
1420 Grandview Ave.

Westerly, R. I., April 27, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: I have received the trees in very good condition and am well pleased with them.
Yours truly,
Walter Taylor

36th Year—The Merits of Varieties Offered Have Been Carefully Tested.

Titusville, Pa., April 10, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: Received shipment of trees last week. They are a fine lot.
Very truly yours,
W. H. Hunt
212 Bank St.

Waverly, N. Y., May 27, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: I received the shipment of trees and vines which you shipped via express recently, all in good condition.
Yours truly,
Geo. E. Trimble.

Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: I received my trees Oct. 29th and they have been planted according to directions. I am more than pleased with them, in fact I was surprised to receive such large excellent specimens. A neighbor who is familiar with fruit trees told me that he never saw such well shaped and good clean trees.
Yours for success,
J. A. Williamson
187 North Lehigh Ave.

Mt. Marion, N. Y., May 19, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: Just a line to advise you of the safe arrival of trees and strawberry plants in good condition.
We are extremely pleased with the goods and we shall not be backward in recommending your nurseries to anyone, or in placing our future orders with your company.
Respectfully yours,
Old Hickory Fruit Farm.

We allow 6% Discount on all Cash Orders received before April 10th. 3% after that date.

C. O. D. TERMS. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash. If the order goes by express you pay the balance to your express agent upon arrival. If the order goes by freight you pay the balance at your bank, where you will also find Bill of Lading, which you present to your freight agent who will deliver shipment to you. THE WISE BUYER ORDERS EARLY.

6% Discount on all Cash Orders received before April 10th. 3% after that date.

Champion. A large, late-ripening sort, that produces good and constant crops. One of the best for sections not subject to early frosts. Last of Oct.

Orange. The best of the older varieties, still more extensively cultivated than any other. Every one is acquainted with the Orange Quince, a good old variety that never disappoints the planter; good for home use and for market. Its large golden yellow fruit of fine quality is to be seen in more or less quantities in nearly every garden or orchard every season, as it rarely fails to produce a crop. Ripens in Oct.

Meech’s Prolific. Fruit is large, orange yellow, of great beauty and delightful fragrance. Tree a vigorous grower and immensely productive. Ripens between the Orange and Champion. Last of October.

Rea’s Mammoth. Large, rich, golden yellow. Sure to ripen even in Northern latitude. Very hardy and productive. October.
The Famous Orange Quince

Introduced by Fred Grover, Pultneyville, Wayne Co., New York

It is generally conceded that there are two or three strains of Orange Quince and that which is grown by most nurserymen is inferior in many ways—flavor, productiveness, size and hardness—to that of the famous Orange Quince grown by Fred Grover of Pultneyville, Wayne Co., New York.

Many of the most prominent fruit growers pronounce it to be, beyond any question of doubt, the very best Orange Quince grown in the United States. We, fully realizing how thoroughly our customers would appreciate having an opportunity to plant trees of this money making variety, made arrangements with Mr. Grover to secure scions from his orchard, and we now offer trees propagated in our upland nurseries from this superior strain. Fruit large, fine grained, almost round in shape, bright golden yellow. Being very firm it stands handling and shipping well. Season Sept. 1st to 15th.

Beautiful and delicious fruit. In quality and appearance is between plum and peach, combining qualities of both. Ripening early, together with its delightful flavor makes it one of the most valuable fruits. Tree hardy as the peach. Requires about the same cultivation as the peach or plum. It ships well and commands a good price in any market. For drying and canning, it has no superior. The Russian varieties are quite distinct from the other European sorts; much harder, earlier bearers and productive.

Alexander. Very hardy and immense bearer; fruit large; yellow, flecked with red; very beautiful, sweet and delicious. July.

Alexis. Very hardy and abundant bearer; yellow with red cheek; large to very large; slightly acid, rich and luscious. July.

Moorpark. One of the largest. Orange with red cheek; firm, juicy, with a rich flavor; very productive. August.

Maloney’s Prepay Transportation Charges

We prepay transportation charges on all cash orders of $7.50 or more received during the entire spring season of 1920 to all points in the following states: New York, Massachusetts, Rhode Island, Connecticut, Maine, New Hampshire, Vermont, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, Michigan, Illinois.

All orders of $7.50 and up to $35.00 will be delivered by Express, prepaid. Those of $35.00 and up will be delivered by Freight, prepaid.

WHEN BUYING FROM MALONEY’S YOU KNOW JUST WHAT YOUR TREES WILL COST YOU DELIVERED. (See Page 9.)

Dwarf Fruit Trees

Dwarf fruit trees bear larger, better fruit, bear several years earlier, and produce more returns for a given space than standard trees. This is all true and there are even more important points. The low, broad heads are within reach, so that apples or pears can be easily picked. You can plant dwarf trees in your garden and still grow strawberries and most vegetables. With dwarfs some varieties will bear the first year, all will the second and bear a full crop the fourth year.

Dwarf Apple trees are budded on Paradise or Doucin stocks, and Dwarf Pear trees are budded on Quince stock. They will succeed in many places where standard trees fail. In a word, they are the kind of Dwarf trees that will put their strength into fruit instead of wood.

Bearing Age Trees

For Your Back Yard

By this we mean trees which we have allowed to grow in our nurseries until they are old enough and big enough to bear fruit. Each of these trees has been especially selected and cared for during the years it has grown in our nurseries.

Few nurseries can supply these trees because they require certain soil and special scientific treatment. Bearing Age Trees are a specialty with us and we can guarantee your success provided you follow the simple directions for planting given below. Be careful to have your soil loose and mellow before the trees arrive.

The value of these trees to you lies in the fact that they will fruit the first year they are planted. You start picking the fruits of your labor at once instead of waiting for years. We have done the waiting for you. We have cared for the trees in the nursery until they are ready to care for your fruit needs. If you want a few trees for your back yard or small home orchard, these are the trees it will best pay you to plant.

Just read these planting directions and see how easy it will be for you to set out your Bearing Age Trees yourself. They will bear this year, and keep on growing and bearing for years to come.

Planting Instructions

Cut off about six inches of the limb growth, prune off bruised ends of roots, if any, make a smooth cut, dig hole deep enough so that the tree will be buried to the same depth as when standing in the nursery row, or up to the collar—soak roots in water one-half hour, place trees in hole, fill in one-fourth, tread well; another one-fourth, tread well; the third one-fourth, tread well; then finish filling and tread firmly so that when the tree is set it would require a strong man to pull it out.

Maloney Bearing Age Fruit Tree Collection

4 Trees value $5.00 for $4.50
1 Clapp's Fav. Standard Pear
1 Montmorency (sour) Cherry
1 Napoleon (sweet) Cherry
1 York State Prune

Red Raspberries

Wholesale Price of 2 Year Strong Plants Best Selected Varieties

25 for $1.50  
100 for $5.50  
1000 for $40.00

**PARCEL POST.** Raspberries can be sent by parcel post, postage prepaid, for 2 cents per bush extra.

6% Discount on all Cash Orders received before April 10th. 3% after that date.

**Cuthbert.** This is a valuable variety well tested throughout the country. It has given good results both from home use and market. Cuthbert is a good vigorous grower and possesses vitality necessary for a popular variety. It yields bountifully of large and beautiful bright red berries, which are easily picked and always command good prices. No fruit grower can afford to omit planting Cuthbert, and surely no person who has a garden should attempt to get along without red raspberries.

**Loudon.** Very hardy, yields 200 bushels per acre, bears best on strong clayey loam, but succeeds well on sand.

**Marlboro (Red).** A very profitable, early market variety with large, light crimson fruits, of good size and flavor. The crop covers a period of four or five weeks in ripening.

**St. Regis.** (Everbearing) This promises to be the most valuable addition to the list of Red Raspberries. The only variety known that gives a crop of fruit the same year they are planted, and two crops a year thereafter. Plants that are set early in the spring will give a small crop of fruit the fall following, and the next spring a big crop equaling that of any Red Raspberry known. In size, quantity and quality, to say nothing of its fall-bearing qualities, it is ahead of anything we know of. About the middle of August it commences to set fruit on the young canes, and bears continuously from then until frost. The berries are large, beautiful and attractive. If you have failed with every other variety of Raspberry, either North or South, plant St. Regis and succeed.

Conrath, Early Black. In Conrath we have united vigor, hardness, large size and productiveness; qualities that will give it a foremost rank.

Cumberland New Black. This new berry is a very valuable acquisition. With its greatly superior size it combines the equally valuable characteristics of great firmness, splendid quality and wonderful productiveness. Fruit very large, firm, Mid-season.

Gregg Black. Of good size; fine quality, very productive and hardy.

Kansas Black. This variety is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early. Berries size of Gregg, of better color; jet black and almost free from bloom; firm, of best quality, presents a handsome appearance, and brings highest price in market. The average yield of an acre of Kansas in dried raspberries is 500 pounds. The average price, year by year, is twenty cents per pound.

Plum Farmer Black. This very large and productive black raspberry has been thoroughly tested in western New York where it is a great favorite for market or home use. It is covered with a grayish bloom, like the bloom on a grape, which makes it very attractive in appearance. It ripens very early and quickly. The fruit is enormously large.

Purple Raspberries

Columbian Purple. A strong grower, unexcelled for productiveness and desirable for canning. Fruit very large, purplish color, rather soft; rich, sprightly flavor.

Wholesale price: 25 for $2.25, 100 for $7.50, 1000 for $50.00.

REMEMBER ITS FOR YOUR OWN PERSONAL INTEREST TO PLACE YOUR ORDER FOR BERRIES EARLY.

**Eldorado.** The vines are very hardy and vigorous, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

**Mersereau.** Remarkably strong grower, upright, producing stout, stocky canes. An enormous producer of extra-size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

**Minniewaska.** This wonderful, hardy, productive, good blackberry has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness.

**Snyder.** Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. Ripens early.

**Blower’s.** Claimed to be the hardiest, most productive, of finest quality and to bring the highest market price.

**Gooseberries**

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit.

**Downing.** Largest and best of all native American varieties. This valuable variety originated with Charles Downing, greatest of all pomologists. The value of Downing lies in its large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew. Downing is free from spines, of a transparent color, tending to yellow; bush upright, keeping the fruit from the sand. Enormously productive.

**Josselyn.** Marvelously productive and bears second, if not the first year planted. The fruit is of large size, color dark red. When making out your order, do not fail to include some of this variety, as it has been thoroughly tested in nearly every state in the country, and is extremely popular everywhere.

**Red Jacket.** An American seedling of large size, smooth, prolific and hardy, of best quality. Has been well tested over a wide extent of territory by the side of all the leading varieties, and so far the most free from mildew, both in leaf and fruit, of them all. A wonderful cropper.

**States into which Gooseberries Cannot be Shipped.**

Strawberries

Wholesale Price of all Varieties

Express: $1.00 for 25, $1.75 per 100, $10.00 per 1000. Mailed, Postpaid: $1.15 for 25, $2.00 for 100.

CORSICAN

A great strawberry for many reasons. First, it is the biggest berry; second, it is the brightest and best in color; third, it is a great yielder and producer; fourth, and the most important of all, the foliage is exceedingly vigorous and leathery, resisting fungus, drought, weeds, and even neglect of cultivation.

Brandywine. (Per.) Late. The strong, upright growing plants produce an abundance of very large berries on erect fruit stems. They are of good color and shape and possess a very fine, peculiar flavor. Begins to ripen in mid-season, and continues until blossoms are killed by the frost.

Corsican

Fall Bearing Varieties

America (Per.) Superb Productive

These varieties will fruit from early July until cold weather.

Wholesale Price

Express: 50 for $2.00, 100 for $3.25
Mailed Postpaid: 25 for $1.25, 100 for $3.50.

Garden Roots

PARCEL POST. Garden Roots can be sent by parcel post, postage prepaid, for one cent each extra.

Rhubarb or Pie Plant

Linnaeus. Large, early, tender and fine. The very best of all.
10 cents each, $1.00 per 10, $7.50 per 100.

Asparagus

75c for 25, $1.75 per 100, $10.00 per 1000.

To plant, see that the ground is well drained. Work it up fine and deep, make it very rich with well-rotted manure. Locate the plants eight inches apart in rows three feet apart, spread out the roots in a trench made deep enough to permit the crowns to be covered with three or four inches of mellow earth. Give the bed a dressing of manure and except near the seashore three pounds of salt early every spring. Do not cut for use until the plants have grown two seasons.

Palmetto. A very early variety, even, regular size and of excellent quality. It has been tested both north and south and has proven entirely satisfactory.

Conover's Colossal. Very large, makes rapid growth; planted mostly by market-gardeners; very productive.

HOLT'S MAMMOTH SAGE. Plants of strong growth. Leaves large, borne well above the ground. Of strong flavor and superior quality.

Price of strong 2 year roots, 25 cents each, 10 for $2.00.

HORSE RADISH. Will stand a great deal of hardship and exist in soil year after year. Plant in deep, rich, cool soil. The yield will vary according to the soil and treatment. As high as ten tons have been secured from an acre.

Price: Strong Sets, 60 cents per 10, $5.00 per 100.

EACH TEN HUNDRED

.50 $4.50 $40.00

PARCEL POST. Grapes can be sent by parcel post, postage prepaid, for 2 cents per vine extra.

6% Discount on all Cash Orders received before April 10th. 3% after that date.

Every city and country garden should have a dozen or more grape vines. They do admirably trained up the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest fruit. Plant about 8 feet apart, by the fence or building. For vineyards, make rows 8 feet apart, 6 to 10 feet in rows.

Catawba. Dark red when fully ripe. Bunch large, berries medium to large, skin thick, tough; flesh somewhat pulpy, with rich vinous flavor, of best quality for both table and wine.

Concord. Black. Early. Decidedly the most popular. Grape in America and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom, skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulp tender; berries large, grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable variety. Wholesale price, 45 cents each, $4.00 per 19, $35.00 per 100.

Campbell's Early Black. Strong grower, with large, healthy foliage, productive; its keeping and shipping qualities are equalled by no other early grape. Ripens with Moore's Early. Bunch and berry large, glossy black with blue bloom, sweet and juicy, seeds few and small, part readily from the pulp. Stands at the head of early black grapes for quality.

Delaware. Red. Bunches small, compact, shouldered; berries rather small, round, skin thin, light red; flesh very juicy, sweet, spicy and delicious.

McKinley Early (New White). Strong grower; bunches large, compact and handsome, berries large and oval like Malaga Grapes; green at first, turning to yellow when fully ripe; very sweet. Extra quality; a good shipper; remarkable keeper; will hang on vines sound and perfect for weeks after ripe. Ten days earlier than Niagara with the richest flavor of any Grape on the market.

Moore's Early Black. Bunch large, berry large round with heavy bloom; vine exceedingly Hardy. Its earliness makes it desirable for an early market. Its hardiness particularly adapts it to Canada and northern portions of the United States; succeeds admirably in the south.

Niagara White. Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

Worden. Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin.

Grape Vines at a Bargain

10 Strong, 2 Year Vines for $4.35

3 Concord, 1 Campbell Early, Black, 2 Brighton, 1 Niagara, 3 Worden

All 2 year old, first class Grape Vines for $4.35, Regular Price being $4.85.
**Cultivars**

**Black Champion.** Bush vigorous and productive; fruit averages above medium; pulp nearly sweet, mild flavored. A desirable variety for general culture.

**Cherry.** Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red; berry thin skinned, juicy and fine flavored. One of the most productive of the large Currants.

**Diploma.** Large, solid and of good quality, very attractive appearance, both clusters and berries being very large. Vigorous grower and the most productive red currant.

**Fay.** (Fay’s Prolific). Bush vigorous but not quite so strong a grower as Cherry; cluster medium to long, with rather long stems; color darker; and berry averages large; juicy and less acid than Cherry. An excellent commercial variety.

**Perfection.** In color it is a beautiful bright red, a size larger than the Fay; clusters average longer and the size of berries are maintained to the end of the bunch. It is one of the most productive Currants we have ever known.

**Red Cross.** A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. It is exceedingly productive, and the currants are of large size. Further than this, the fruit is far sweeter than ordinary currants.

**White Grape.** Bush vigorous, somewhat spreading, productive; clusters long; berries large to very large, averaging large; of very attractive color, mild flavor and good quality. A good table variety.

**Wilder.** (President Wilder.) Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild sub-acid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productivity, high quality and remaining good so long after ripening, we recommend this as one of the best red currants, both for table and market.

**States Into Which Currants Cannot Be Shipped**

**Bargains in Currants**

**10 Bushes 2 yr. old $2.25**

36 Years Experience back of Every Tree

Newburgh, N. Y., May 27, 1919.
Gentlemen: Trees ordered from you this Spring arrived in fine shape and are all doing nicely. Will recommend some of my friends to investigate your stock.

Yours truly,
Chas. G. Tompkins.

Peckville, Pa., Apr. 25, 1919.
Gentlemen: Received the trees shipped by you on April 23. They were well packed and fine healthy trees. We were perfectly pleased with them.

Yours truly,
Anthony Munley.

Gentlemen: Have been planting trees for the past ten years, and wish to say to you that your firm has proved to be the most honorable nursery company that we ever had any dealings with. I simply wish to express my appreciation of your prompt and businesslike method of doing business.

Yours truly,
M. A. Cooper.

Dayton, Ohio, Apr. 18, 1919.
Gentlemen: I received the trees which were in splendid condition and am very much pleased with them. All I can say is, they are some trees.

Yours very truly,
J. Wessalosky,
Asst. Cashier, Third National Bank

Sunbury, Pa., Nov. 22, 1919.
Gentlemen: I am the party to whom you shipped 1400 Peach trees four years ago this coming spring. I have sold $508.00 worth of Peaches to date and the trees are looking fine, have lost only a few. The fruit is of the best, the Elberta brought me $4.50 per bushel and the Carman $3.20.

Yours truly,
Reuben Ressler.

Our Steam Digger in Operation. No Mutilated or Short Roots

There is an alarming tree shortage throughout the United States this Spring—only half enough to go around. Conditions will remain about the same for several years or until such time as France gets back to producing its normal supply of fruit tree seedlings.
Nut Trees

This grove of about 200 trees produced 1916 season $1500.00. As the trees advance in years, the crop will be considerably heavier and naturally the profit greater.

English Walnuts are regular bearers, for the fruit buds are hardy and never injured by late frosts. Nut culture in the United States, is in its infancy. The English Walnut can be grown in the Northern and Eastern states, as well as in California and the South, for nuts grown here find a much more ready sale at advanced prices, as the flavor is decidedly better. The constant and growing demand for English Walnuts, and the immense quantities of them yearly imported to meet it, have given a great impetus to the planting.

So palatable and wholesome are the nut kernels, that they should become a staple article of food here as in Europe. The returns from orchard above illustrated, show plainly how successful nut culture may be made in the Northern and Eastern states.

Until recently little attention has been given to the planting of English Walnuts, therefore, it may be truly said he who plants now, is bound to reap splendid returns. Most farms contain land that would pay better planted to English Walnuts, than anything else, for they will thrive on such land as is suitable for raising potatoes, corn and grain.

Every garden or lawn should also contain one or more of these trees for they are well shaped and provide splendid shade.

While we have a big supply of the 3-4 ft. trees, we anticipate a heavy demand, and would suggest you place your order early and thus avoid disappointment.

**Chestnut, American Sweet** is adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes.

Wholesale Price of 4 to 5 ft. trees, 85 cents each.

**Chestnut, Spanish.** A handsome round-headed tree, producing abundantly, very large nuts that find a ready market at good prices.

Wholesale Price of Spanish Chestnut trees, 4 to 5 ft. $1.00 each.

**Butternut.** A fine native tree producing a large, longish nut, which is prized for its sweet, oily nutritious kernel.

Wholesale Price of Butternut trees, 4 to 5 feet, 75 cents each.

**Pecans.** This nut is very productive and delicious.

Wholesale Price, 3 to 4 feet, 75 cents each.

6% Discount on Cash Orders received before April 10th. 3% after that date.

**Walnut, English.** A fine, lofty, growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. Every home garden should have one or more English Walnuts. Tree very hardy, will succeed well in all states east of the Mississippi.

Wholesale Price, 3 to 4 feet, $1.00 each.

**Walnut, Black.** The common well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are liked by many.

Wholesale Price, 4 to 5 feet, 75 cents each.

Gentlemen: The box of trees arrived today and are all right.

Yours truly,

Morley H. Pearson,

The Adelbert Thompson English Walnut Grove, Avon, N. Y., situated a few miles east of Dansville

Nuts in illustration are ½ Natural Size

41
More attention is being paid every year to the proper beautifying of grounds surrounding our homes. The increase of reading matter on this subject has caused us to become keenly alive to the fact that as much thought and attention should be given to the environment of a house as to the house itself, and we realize that a house and its surroundings should be considered as a whole.

Too often is the effect of a good picture spoiled in the framing, and the grounds of a home should be considered as a frame to the picture represented by the house. On the other hand, a poor picture may be wonderfully improved by proper framing, and in the same way a house, inartistic in itself, may be made a thing of beauty by giving extra attention to the laying out and beautifying of its surrounding grounds.

The lawn may be considered the canvass upon which the house picture is to be made, and trees and shrubs, together with the buildings, make up the most important materials to be used in the work, and no satisfactory or beautiful home can be made without them.

In fact, the grounds surrounding a home reflect the individuality and tastes of the owner, and first impressions of people are often gained from the way they plant and keep the grounds surrounding their homes. No country can boast of so many beautiful trees, shrubs, roses, etc., as the United States, and with the addition of the choicest varieties from many other countries now offered by this company, we have the greatest wealth of material for the most elaborate work of home beautification or Landscape Gardening.

Just one word about our hardy upland grown ornamentals. The soil and climatic conditions together with experienced labor enable us to produce stock which gives a very effective appearance first year set, for they are scientifically treated and equipped with a fibrous root system which enables them to establish themselves quickly and make a rapid and continuous growth—sold at cost of production plus one small margin of profit.

Your dollar has twice its purchasing power when dealing direct with us, the growers, for the middleman’s commission remains in your pocket.
Dear Friends:— Have you not frequently remarked about the beauty of some home while driving through a city, town or country, has it ever occurred to you just what there was in particular about those places which appealed to your scene of beauty, was it not due largely to the splendid effect of a few shrubs and ornamental trees promiscuously planted?

Is it not true that a home, no matter how well built, if standing on a bare lot never causes a favorable comment? It's the few dollars invested in shrubs that gives warmth to the house and greatly increases its value. Note the illustrations on this page.

A slight investment in shrubs, roses and ornamental trees will add greater value, comfort and solid satisfaction to your home than dollar for dollar invested in anything else. See pages 43 to 62.

PARCEL POST. Roses can be sent by parcel post, postage prepaid, for 3 cents per bush extra.

6\% Discount on all Cash Orders received before April 10th. 3\% after that date.

Anne de Diesbach. Carmine, a beautiful shade; very large. A superior garden sort; fragrant; one of the hardiest.

Blanche Robert. Pure white, large and full, buds very beautiful. A strong grower and a desirable variety.

Bessie Brown. New. Very large, shell-shaped petals of creamy white, faintly flushed with pink, make up into flowers of rare beauty.

Baby Rambler. A dwarf (bush.) Just the thing for beds and borders and for edging walks. They are bound to take the place of geraniums and other plants which have to be removed each year. You can have them in Crimson and white. Price 30c ea., $2.50 per 10.

Baron de Bonstetten. Flowers large and very double; color rich, dark red, passing to deep velvety maroon. Very fragrant.

Coquette des Alps. White, shaded with carmine; strong grower and a great favorite. This variety is very valuable; it continues to give a profusion of blossoms for weeks after general varieties have finished.

Frau Karl Druschki. Snow Queen. The finest white Hybrid Perpetual Rose, with large, full flowers of splendid form. It is marvelous in its beauty in half opened bud and in the pure white of the full opened bloom. It is the ideal rose for cemetery planting both North and South. It holds its foliage well and is healthy and vigorous and in hardiness it equals any of the Hybrid Perpetuals.

Likes Maloney Hardy Roses Best
Westfield, N. J., June 2, 1918.
Maloney Bros. & Wells Co., Dansville, N. Y.

Gentlemen: The rose bushes were received in good condition. I am very much pleased with them. Many thanks. Yours truly,

J. V. Peeples

Rose Collection No. 27
1 Frau Karl Druschki 1 La France
   1 General Jacqueminot
3 Strong Bushes, 2 Year, No. 1 worth $2.25 for $2.00.

Maloney Hardy Roses Grown at an Elevation of 1500 Feet
Are Incomparable
General Jacqueminot. Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

Hugh Dickson. Intense crimson, shaded scarlet; very large, full and magnificent form, with high pointed center; growth upright and vigorous, free and continuous blooming; the finest of all autumn roses, highly perfumed.

Killarney. One of the most popular of our garden roses. It is perfectly hardy, a robust grower; color sparkling, brilliant, imperial pink.

La France. Rich satiny peach, changing to deep rose; large and full. A constant bloomer. The sweetest of all.

Magna Charta. Pink and carmine; very large and full; a profuse bloomer. Fragrant. Free grower.

Marshall P. Wilder. Bright cherry carmine; very fragrant and one of the freest bloomers; vigorous.

Mad. Caroline Testout. One of the most popular of the Hybrid Teas for the garden. This is the Rose which has made Portland, Oregon, famous. The flowers are extra large, and of a brilliant, shining pink.

Rose Collection No. 26
2 Killarney Pink  1 Blanche Roberts, white
2 Prince Camile de Rohan, red
5 Strong Bushes, 2 Year No. 1 worth $3.75
for $3.50.
**Roses (Continued)**

**Mad. Plantier.** Pure white, large and very double. A free bloomer and grower.

**Mrs. Laing.** Very free flowering; commences early and continues to bloom profusely until fall. Of delicate pink color. Very fragrant.

**Margaret Dickson.** New, perfectly hardy and very vigorous. A free summer and autumn bloomer. Flowers white with pale flesh center, of a waxy texture and delightful fragrance.

**Perle des Jardines.** A rich shade of yellow, fragrant—one of the best yellow roses, bush exceptionally hardy. $1.00 ea., $9.50 per 10.

**Prince Camile de Rohan.** Very dark velvety crimson, changing to intense maroon.

**Paul Neyron.** The largest of all. Deep rose color. A free bloomer and vigorous grower.

**Climbing Roses**

Wholesale price, 2 yr. No. 1 Bushes 75c each, $7.00 per 10.

**Crimson Rambler.** New. Of Japan origin. Very vigorous, growing eight to ten feet a season after it is well established. Entirely hardy and extremely prolific. It blooms in clusters. Of a beautiful crimson color and lasts a long time. It is a jewel.

**Baltimore Belle.** Pale blush, nearly white. Bloom in clusters.

**Prairie Queen.** Bright rosy red. Very large and fine.

**Dorothy Perkins.** A most beautiful shell-pink rambler. In hardiness, nothing more could be desired. Flowers are very double of large size, usually two inches across and borne in loose clusters.

---

**No Roses Imported**

The Government prohibits the importation of roses. About one-half of the roses sold in the U. S. were imported. Under these conditions it is advisable to order early this spring.
There is an Alarming Tree Shortage Throughout the U. S. this Spring—Only One-Half Enough to go Around—Order Early.

Gentlemen:

I am happy to say the stock arrived yesterday in fine condition and we planted same anticipating the best results.

Yours in haste,

DR. EGEE.
Ornamental Trees

6% Discount on all Cash Orders received before April 10th. 3% after that date.

No home grounds are really complete without some shade and ornamental trees. The shade of Maples and the dark covers under Evergreens are never forgotten by people who in childhood played and lived under the trees. A comparison of a home without shade trees about it, to one with, is the best argument we can advance.

Magnolia, Speciosa—Flowers smaller, lighter in color than Soulangiana and remain on the tree longer than any other variety. 4-5 ft. $4.00 each.

Magnolia, Soulangiana—Chinese variety, dwarf grower, bears showy white and purple flowers, cup-shaped, and three to five inches in diameter. 4-5 ft. $4.00 each.

Nothing will add more value to your property than ornamental trees, plants, shrubs and vines. If you want to sell your home or estate you will find that these improvements will add immensely to its value and beauty. We offer a large variety of ornamental trees, plants and shrubs to choose from. They are all healthy and vigorous growers.

American Elm. A natural spreading and drooping tree of our own American meadows and forests. It is very attractive in any suitable location, is entirely hardy and easily transplanted. There are more Elm trees planted along our streets and highways than any other one variety. This is on account of its dense green foliage, which spreads out from overhead, covering a suitable space of ground in proportion to the size of the tree; which makes it the finest shade tree in the world. Wholesale Price, 8 to 10 ft., $1.25 each, 10 for $10.00, 8 to 8 ft., $1.00 each, 10 for $8.00.

Maloney's Prepay Transportation Charges
We prepaid transportation charges on all cash orders of $7.50 or more received during the entire season of 1920 to all points in the following states: New York, Massachusetts, Rhode Island, Connecticut, Maine, New Hampshire, Vermont, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, Michigan, Illinois.

All orders of $7.50 and up to $35.00 will be delivered by Express, prepaid. Those of $35.00 and up will be delivered by freight, prepaid.

The Prices quoted in this Catalogue are for the Actual Cost of the Trees Delivered
Ornamental Trees (Continued)

**Catalpa Bungei.** (Umbrella Catalpa.) Grafted on stems 6 to 8 feet high, it makes an umbrella shaped top without pruning. Perfectly hardy, and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped. A very desirable ornamental.

*Wholesale Price of Trees, 6 to 8 feet, $2.00 each.*

**Catalpa Speciosa.** One of the most rapid growers. Valuable for timber, fence posts, railroad ties, etc., possesses wonderful durability. Large, heart-shaped, downy leaves, and compound panicles of white flowers.

*Wholesale Price of Trees, 6 to 8 feet, 75 cents each, 10 for $7.00.*

**Cut-Leaved Weeping Birch.** This noble tree is not only the most popular of the weeping trees, but it is decidedly the best. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree.

*Wholesale Price of Cut-Leaved Weeping Birch, 5 to 6 feet trees, $1.75 each.*

**Horse Chestnut, White Flowering.** The well-known European species; very handsome; has magnificent spikes of white flowers. As a lawn tree or for the street it has no superior.

*Wholesale Price, 6 to 8 feet, $1.00 each.*

**Maple, Ash-Leaved.** (Box Elder.) A fine, rapid-growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

*Wholesale Price, 8 to 10 feet, $1.25 each, 10 for $10.00. 6 to 8 feet, $1.00 each, 10 for $8.00.*

**Maple, Norway.** This is one of the hardest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

*Wholesale Price 8 to 10 feet, $1.25 each, 10 for $10.00. 6 to 8 feet, $1.00 each, 10 for $8.00.*
Ornamental Trees (Continued)

**Maple, Silver-Leaved or Soft.** Foliage bright green above and silver underneath. An exceedingly rapid grower. Makes a large tree. A very satisfactory tree to plant in large quantities.

*Wholesale Price of Silver-Leaved Maple, 8 to 10 feet, 35 cents each, 10 for $8.00; 6 to 9 feet, 75 cents each, 10 for $6.50.*

**Maple, Sugar or Rock.** This native tree of ours is a universal favorite for street planting, and desirable everywhere. It is considered a slow grower, but is long-lived.

*Wholesale Price 8 to 10 feet, $1.25 each, 10 for $10.00; 6 to 8 feet, $1.00 each, 10 for $8.00.*

**Maple, Wier's Cut-Leaved.** One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, as graceful as cut-leaved birch.

*Wholesale Price, 8 to 10 feet, $1.25 each, 10 for $10.00; 6 to 8 feet, $1.00 each, 10 for $8.00.*

**Mulberry, Downing.** This tree is not alone valuable for the large refreshing berries it bears, but is very handsome as a lawn or street tree. This should be in every yard or garden.

*Wholesale Price, 4 to 5 feet, 75 cents each, $6.50 per 10.*

**Mulberry, Russian.** Very hardy, vigorous grower, very productive, fruit black and of medium size.

*Wholesale Price, 5 to 7 feet, 75 cents each, 10 for $6.50.*

**Mulberry, Tea's Weeping.** The most graceful and hardy weeping tree in existence. Forms a perfect shaped head, with long, slender, willowy branches, drooping to the ground.

*Wholesale Price, 5 feet, $2.00 each.*

**Poplar, Carolina.** This tree takes front rank among the best of the poplars. It is one of the most rapid growers among shade trees, frequently growing eight feet during one season and thus making fine shade in two or three years. It is very desirable when planted at the roadside, in parks or along rivers and streams. It has an advantage over other shade trees because it will grow in any kind of soil.

*Wholesale Bargain Prices for Carolina Poplar trees 10 to 12 feet high, 75 cents each, 10 for $6.00, 100 for $40.00. 8 to 10 feet high, 65 cents each, 10 for $5.00, 100 for $30.00. 6 to 8 feet high, 55 cents each, 10 for $4.00, 100 for $20.00.*

**Poplar, Lombardy.** A well known variety from its tall spire-like form. Where it is desired to mark a boundary line, or where there is an entrance to a driveway these trees are very effective. We have some beautiful specimens and can recommend them highly. They transplant safely, grow quickly and for many purposes are attractive and desirable.

*Wholesale Price, 8 to 10 feet, 85 cents each, $7.50 per 10, $50.00 per 100.*

**Thorn, Double Pink.** Double pink or rose flowers with white tips.

*Wholesale Price for first class Trees, 4 to 5 feet, 75 cents each.*

**Thorn, Paul's Double Scarlet.** Flowers deep crimson with scarlet shade; very double.

*Wholesale Price of Trees, 4 to 5 feet, 75 cents each.*

Cut-Leaved Weeping Birch
**EVERGREENS**

Evergreens are increasing in popularity rapidly. We are now giving special attention to the propagation and culture of perfectly hardy species and varieties, such as are most useful to the general planter.

We recommend Spring planting. All evergreens will be lifted with ball of earth and roots wrapped in burlap.

**American Arbor Vitae.** A beautiful native tree much used for hedges, screens, singly on lawns and in tubs for porches. It is a handsome little tree and if allowed to grow natural, will be quite tall and pyramid shape. Can be trimmed and kept in any form or height. In the summer is bright green above and yellow below, and when winter comes, changes to the richest tone of brown and bronze.

Wholesale Price, 2 to 3 feet, 75c each, $6.50 per ten.
Bailed and Burlapped.

**Colorado Blue Spruce.** foliage is blue and sage—that distinctive color which is so rare in the east. The Blue Spruce is the most beautiful of conifers. Its silver foliage glistening in the sunlight, makes it surpass in beauty any other evergreen. Tree usually has a symmetrical shape, narrow pyramid or round top. It is very hardy, a good grower, will withstand severe winters as well as excessive moisture and is easily transplanted. Wholesale price, 2 to 3 feet, $3.00 each.
Bailed and burlapped.

**Norway Spruce.** There is no evergreen so largely planted as the Norway Spruce. It is indeed a tree possessed with great beauty at all seasons of the year, but particularly in winter when its branches are weighed down with newly fallen snow. This spruce is a rapid grower and is often used as a lawn fence between village or city lots. Norway Spruce can be planted most effectively in groups on the lawn, imitating nature, planting without any particular order.

Wholesale Price, largest size, 2 to 3 ft., 75 cents each; $6.50 per ten; $50.00 per hundred.
Bailed and Burlapped.

**Irish Juniper.** Junipers are handsome evergreens, always neat and clean. This variety grows exceptionally slim and common-like. A general favorite for cemeteries and other planting.
Wholesale Price, 2-3 ft. $1.25 each, $10.00 per ten.
Bailed and Burlapped.

**Koster's Select Blue Spruce.** (Grafted)—the finest of all blue evergreens, selection from the Colorado Blue of extra fine color and compact free growth. Very dense on branch ends like all spruces and has regular slim branches, all growing to the same length in the same form.

Price, 2 to 3 feet, $4.00 each.
Bailed and burlapped.

---

This Illustrates the Fine Effect of Evergreen Planting
Hardy Climbing Vines

6% Discount on Cash Orders received before April 10th. 3% after that date.

**Ampelopsis Veitchii** (Boston Ivy.) This is one of the finest climbers we have for covering walls, as it clings firmly to the smoothest surface, covering it closely with overlapping foliage, giving it the appearance of being shingled with green leaves.

*Wholesale price of strong 2 year plants, 65 cents each.*

**American Ivy or Virginia Creeper** (A. Quinquelolia). A native vine of rapid growth, with large luxuriant foliage, which in autumn assumes the most gorgeous crimson and purple coloring.

*Wholesale price of strong 2 year plants, 65 cents each.*

**Dutchman’s Pipe.** Brownish flowers, resembling a miniature pipe; splendid for archways or verandas.

*Wholesale price of strong 2 year plants, 75 cents each.*

**Halliana** (Hall’s Japan Honeysuckle). An almost evergreen honeysuckle of the greatest value, being hardy and of strong growth. The flowers are fragrant, of a pure white, changing to yellow.

*Wholesale price of strong 2 year plants, 65 cents each.*

**Henryi Clematis.** A vigorous grower and a free blomer, producing its large pure white flowers constantly during the summer and early autumn. The best large-flowered variety

*Wholesale price for strong 2 year plants, 65 cents each.*

**Jackmanni Clematis.** The flowers are large, intense, rich, velvety violet-purple, and are produced in such masses as to form a cloud of bloom. This is the best known Clematis, and should have credit of the great popularity it is now attaining in this family of beautiful climbers. Though originated in 1892, since which time many new varieties have been raised and introduced, the Jackmanni has no superior and few equals.

*Wholesale price for strong 2 year plants, 65 cents each.*

**PANICULATA CLEMATIS**

**Paniculata Clematis** (Sweet-scented Japan Clematis). Of very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy foliage. The flowers are of medium size, fragrant, pure white, borne in immense sheets in September, when very few other vines are in bloom.

*Wholesale price of strong 2 year plants, 65 cents each.*

**Trumpet Vine.** A robust, woody vine; twinning tightly with numerous roots along its stems. Its orange scarlet, trumpet-shaped flowers cluster at the tip of the branches. Plant in a sunny spot in good garden soil, dug very deep, placing the crown of the roots three-fourths inch below the surface.

*Wholesale price of strong 2 year plants, 65 cents each.*

**Wisteria, Chinese Purple.** A most beautiful climber of rapid growth and producing long pendulous clusters of pale blue flowers.

*Wholesale price of strong 2 year plants, 65 cents each.*

**PARCEL POST.** Climbing Vines can be sent by parcel post, postage prepaid, for 5 cents per vine extra.

Shrubs are useful in bringing out the full beauty of a house. Splendid effects can be had by planting an assortment of flowering shrubs on the lawn, not at all difficult to arrange them, for a group planted promiscuously here and there, has a splendid effect, and at our wholesale prices, enables you to improve the home at a very reasonable price.

**Azalea, Mollis.** Flowers are large and of a variety of colors in shades of red, yellow and orange. $2.00 each.

**Azalea, Ghent.** Unequaled for brilliancy and variety of color, while flowers are not so large as in the Mollis, the color is more delicate. $2.00 each.

**Althea.** A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors: Althea Double Purple, Red, Pink and White.

**Butterfly Bush.** Seems to attract butterflies in large numbers. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long. It blossoms from early summer till frost; splendid for cutting.

Maloney shrubs are hardy, upland grown at an elevation of 1500 feet; varieties listed are the hardiest, most beautiful and lasting, thrive everywhere and need little care or attention when once established. Year after year they grow larger and more beautiful.

**Barberry Thunbergii.** A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. All Barberries make very fine hedges.

**Calycanthus.** (Sweet-scented shrub.) The wood is fragrant; foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor.

**Deutzia, Gracilis.** Pure white flowers in June. Two feet high when fully grown.

**Deutzia, Crenata, Double-Flowering.** A hardy, vigorous shrub that does not suffer from insects or diseases and early in the season is fairly covered with very showy double white flowers that on the edge are slightly tinged with rose. Handsome, desirable shrub.

**Deutzia, Lemoinei.** Dwarf, the flowers are large pure white and produce freely.

**Deutzia, Pride of Rochester.** Blooms in May. Double, white, tinted with rose on the edge.

**Fringe Purple or Smoke Tree.** A very elegant and ornamental large shrub, with curious, hair-like flowers of a pinkish brown color which sometimes literally cover the tree and remain all summer.

Maloneys Grow the Trees and Plants They Sell

54
Conditions will be favorable this spring for doing that planting of shrubs and ornamentals which you possibly planned last spring and postponed on account of labor shortage.

One May Live as Long Without Shrubs and Ornamentals. But—Not So Happily

A modern home costs considerable money, much of the expense being incurred for the sake of beautifying and it is money well spent for Americans like beautiful surroundings. A large portion of the expenditure on a house is devoted to ornamentation; a fireplace here, a moulding there, a higher polish everywhere.

These are the things that ennoble life, that give a sparkle to the eye and conduce to real comfort and satisfaction.

And yet many people who spare neither time nor money on the finish of the house are utterly indifferent about the appearance of their lawn, never thinking that a small investment will make a living picture of their home. To fully realize, appreciate and enjoy ornamental planting just compare two homes of similar conditions, one having the bare lawn, the other with a few shrubs, roses and ornamentals promiscuously planted. And let us advise you that these plantings can be made with the small expenditure of one or two percent of the cost of building your home. Furthermore the perfume from the shrubs, ornamentals and roses is stated by physicians of authority to be of great improvement to the healthful condition about your home.

Ripley, N. Y.

Gentlemen:—

The trees and shrubs arrived Thursday, April 25, all in fine condition. I have given your address to other parties interested in your line and as I travel over three states I will recommend your goods whenever an opportunity permits.

Respectfully yours,

THE LAKE SHORE VINEYARD,
C. D. Proper.

We Prepay Transportation Charges on All Orders Over $7.50
Shrubs (Continued)

**Fringe White.** A popular and much admired shrub of moderate growth, and rounded form, with large, dark green, glossy leaves, and long drooping panicles of beautiful white fringe-like flowers.

**Forsythia Fortunei** (Golden Bells.) Deep yellow flowers in great profusion in April.

**Golden-Leaved Elder.** The best of all the colored shrubs. A plant of this bush in a bed, or a border, or on the lawn, is a conspicuous feature, the foliage being as yellow as gold.

**Hydrangea Paniculata Grandiflora.** Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink and are borne in large pyramidal trusses often more than a foot long and six to eight inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. Wherever known it is considered to be one of the finest flowering shrubs.

**Hydrangea, Arborescens Grandiflora Alba** (Hills of Snow)—This hardy American shrub is the very finest addition to this class of plants. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished.

**Lilac, Purple.** An old favorite; purple flowers.

**Lilac, White.** A well known favorite.

**Mock Orange.** Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower.

**Perennial Phlox.** Hardy and succeeds in any climate. Can be planted in large groups on the lawn or in a row along the border of the roadway. Red, pink, or white.

**Quince, Japan.** Dark green foliage, and showy deep, scarlet flowers of good size.

**Spiraea, Bilitardi.** A hardy, free growing shrub. During July every branch and twig is tipped with a spike of beautiful blood-red flowers 4 to 6 inches in length. A distinctive and beautiful flower and shrub.

**Spiraea Callosa Rosea.** Has large panicles of deep rosy blossoms; grows freely and blooms nearly all summer; fine.

**Spiraea Douglassi.** Has spikes of beautiful, deep rose-colored flowers in July and Aug.

**Spiraea Van Houttei.** This is undoubtedly the best of the spiraeas. The cut shown is a fair one and shows it in full blossom. The blossoms are white. Do not pass it by.

**Syringa, Common.** Large, white flowers; very hardy.

**Syringa, Golden.** Large, deep yellow flowers; bush hardy.

---

**Maloney’s Flowering Shrub Collection No. 11**

FOR THE HOME GROUNDS

6 Large Size 2½-3 ft. Shrubs worth $3.00 for $2.70

1 Purple Fringe, 1 Deutzia, Pride of Rochester, 1 Golden Leaved Elder, 1 Snowball Common, 1 Weigelia Rosea, 1 Spiraea Van Houttei.

---

Hemstead, N. Y., Apr. 18, 1919.

Gentlemen: Trees and bushes reached me in good order, and gave me perfect satisfaction. I never saw more promising stock.

Respectfully,

HOWARD TRAVIS
Shrubs (Continued)

Japan Snowball

Butterfly Bush

The Reason Why

There is no way that a real estate owner can add more to the value of his home or property than by setting out roses, shrubbery and flowering plants. A well planted lawn bespeaks refinement and taste, even in a greater degree than the furnishings inside the house. If the lawn or yard is well planted it adds to the comfort of the home, and here is the point of chief interest—you can usually judge the character of the people inside the house by the way the outside looks. A cottage may be ever so humble, but if it is adorned with vines, shrubs and roses, you at once know that good hearts beat within the breast of the occupants. Then again, everyone in a community is benefited by the ornamentation of the surroundings of the home. It furnishes an object lesson that others will follow, and in this way serves a useful purpose in stimulating a love of nature.

The Home and its Surroundings is a mighty Influence in shaping the lives of Men and Women
Shrubs (Continued)

Snowball, Common.

Rhododendron (Rosebay)—No shrub in Nature's garden the world over, can compare with this. $2.50 each.

Upright Honey Suckle (pink.) Pink flowers which contrast beautifully with the foliage.

Weigela, Candida.
The flowers are of the purest white, blooming in June, and all summer. Hardy.

Weigela Eva Rathke.
With showy, bright red flowers borne freely during the summer.

Weigela, Floribunda. The flowers are dark crimson, with white stamens somewhat like Fuchsia flowers. It blooms in the spring and in the fall.

Weigela, Rosea.
This is one of the most charming shrubs in cultivation; it cannot be too highly recommended; the flowers are large and of deep rosy color, and are borne in great profusion.

Hydrangea Tree Form
Same as Hydrangea P. G. except in tree form, being grafted on a Hydrangea stalk about 3 ft. high. When in full bloom are very attractive. $1.00 each.

Maloney's Always Aim to Please

Berlin, N. J., April 17, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: I received the plants last Monday, all in fine condition, and am certainly pleased with them all. It is my first purchase of evergreens and must say I gave it to the right people.

Thanking you very kindly, I remain,
Yours,
JAMES M. ROCKEFELLER.

Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: Received your trees in good condition and they have been planted. Thanking you for your prompt shipment.

Yours respectfully,
G. A. SIMMS.

Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: The trees delivered this Spring are doing well, out of a thousand only two died.

Yours truly,
A. J. FARRELL.

Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: Received your trees, bushes, etc., by express May 18th. While they were about nine days on the road, I wish to give you credit for good material and careful packing. They came in excellent condition. I am pleased with the quality of your trees, etc., and I shall be pleased to recommend your stock, as well as patronize you in the future.

Sincerely yours,
H. R. ALLARD.

So. Williamsport, Pa., Oct. 28, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: The trees arrived at our home last Saturday in fine shape. Thanking you for your prompt attention.

Respectfully yours,
J. B. KELLER.

Corning, N. Y., Nov. 6, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: Your card received and will say I was at the office the morning the plants arrived and set them the same day. The plants were well rooted and looked good to me. Thanking you for your interest, I remain,
Yours respectfully,
L. F. FOSTER.

Connellsville, Pa., Nov. 5, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: Beg to state that nursery stock arrived O. K. This is my third order from you in two years, am more than pleased as to size and ruggedness of stock.

Respectfully yours,
R. V. Rendine.

Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: Trees arrived O. K. I am very well pleased with them. Many thanks for same.
Yours truly,
MRS. M. HOWARD.

Erie, Pa., Oct. 30, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: My order is received in fine condition. Thank you.
Very respectfully yours,
F. JOHNSON.

Youngstown, Ohio, April 14, 1919.
Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: This is to advise you that the shipment of trees and shrubbery has been received, for which I thank you very much. The shipment was in excellent condition, and if they do not live, it will be no fault of yours. The shrubbery was also in fine condition and I am sure there is no doubt about its growing. I took all pains in planting the shipment, and if there is any trouble with the shipment, it will be up to me.

When in need of more trees or shrubbery, my order will be placed with you. Again thanking you for the interest you have taken in the matter, I am,
Yours very truly,
J. L. BARMES.

Maloney Bros. & Wells Co., Dansville, N. Y.
Gentlemen: The nursery stock I ordered from you people arrived yesterday in good condition and I am well pleased with the trees. I will give you another order in the Spring.
Yours truly,
WILLIE GILLISPIE.

There is an alarming tree shortage throughout the United States this Spring—only half enough to go around. Conditions will remain about the same for several years or until such time as France gets back to producing its normal supply of fruit tree seedlings.
Hardy Perennials and Bulbs

It is no wonder that these grand old fashioned hardy garden flowers continue to increase in popularity because there is not a time during the whole flowering season in which some are not in blossom, and when the wooded shrubs are almost bare of flowers in July and August, these perennials and bulbs may be depended upon to make a grand display, requiring scarcely any attention.

A few beds of Iris, Lilies, Phlox, Gladiolus Dahlias and Cannas are an important adjunct to the home and its enjoyment.

The planting of perennials and bulbs has received a wonderful impetus during the past few years—it does seem as you drive through cities, towns, rural districts to note the revival of these delightful color effects so common to the gardens of long ago.

Phlox

_Europa._ One of the newer varieties. White with pink eye. Large and a good grower. 25c each, $2.50 per doz.

_Eclaireur._ Flowers large, bright purple-carmine with lighter center; of fine form. 25c each, $2.50 per doz.

_W. C. Egan._ One of the most beautiful of all—a delicate lilac-pink. 25c each, $2.50 per doz.

_Frau Anton Buchner._ Considered the finest white phlox to date. 25c each, $2.50 per doz.

_Goliath._ A new distinct variety of attractive appearance. It is of gigantic growth, producing large trusses with flowers of a bright carmine color, with a dark carmine-red center. A decided acquisition, and flowering very early. 25c each, $2.50 per doz.

Gladioli

_Lily Lehman._ An early, almost white variety of large size and beautiful form. 25c each, $2.50 per doz.

_War._ A new blood red variety. Extra fine. 25c each, $2.50 per doz.

_Panama._ An improved “America” with flowers of a deeper shade of pink and much larger. 25c each, $2.50 per doz.
Pure White Hardy Phlox

**Dahlias**

*Mme. Victor Vassier.* An extra fine sulphur-yellow; one of the best. 25c each; $2.50 per dozen.

*Le Grande Manitou.* Largest and best fancy decorative Dahlia grown; pure white, striped and splashed with violet-purple. 25c each; $2.50 per dozen.

*Delice.* A splendid variety and very generally grown. It is a bright pink, of perfect form and largely grown for cut flowers. 25c each; $2.50 per dozen.

*Souv. de Gustav Doazon.* A flower frequently measuring 8 inches in diameter, of a bright orange-red color; always reliable and grown in immense quantities. 25c each; $2.50 per dozen.

**Peony Couronne D’Or**

**Canna**

*King Humbert.* 4 ft. The finest canna grown very broad-leaved foliage, of a rich, reddish bronze color. Flowers orange scarlet; very large. Very free bloomer. 25c each; $2.50 per dozen.

*Indiana.* 6 ft. Dark green foliage with glinting golden orange blossoms. Six inches or more in diameter. Orchid flowering type. 25c each; $2.50 per dozen.

*Pennsylvania.* 6 ft. Green foliage, deep orange scarlet flowers; very large, often 7 inches across. 25c each; $2.50 per dozen.

*Wyoming.* 6 ft. Similar to Indiana in bloom but with foliage a purplish cast; has the same large fine flowers. 25c each; $2.50 per dozen.

*Greenback.* 7 ft. An enormous plant of foliage type. Broad rounded leaves resembling a banana plant. Does not bloom, but is a dandy for the tall plants for the center of a bed or a back border. 25c each; $2.50 per dozen.
Hardy Perennials and Bulbs (Continued)

Iris

Blue Sky. Medium size. Standards delicate, bluish lavender, forming a contrast to the purple falls. 25c each, $2.50 per doz.

Chameleon. Medium size, slightly fragrant. Deep lavender standards, violet-purple falls. 25 each, $2.50 per doz.

Charlotte Patty. Standards a golden yellow; falls lightly feathered and veined with maroon. 25c each, $2.50 per doz.

Fairy Queen. Dwarf; late flowering variety. White, falls veined with blue. 25c each, $2.50 per doz.

Garrick. Orchid type of flower, with opal lights in the sun. Standards pale mauve; falls a light violet. 25c each, $2.50 per doz.

General Aganemon. Pure white standards, falls tinted and veined with “Pansy Violet.” 25c each, $2.50 per doz.

Leopold. Darkest of the yellow types. Standards bronze yellow, falls are heavily veined with a dark, reddish maroon. 25c each, $2.50 per doz.

Lilacina. The coloring is most delicate; white standards are lightly traced, tipped with lavender; white falls have a dark bar at their base radiating into violet lines. 25c each, $2.50 per doz.

Madame de Bonne. Large and attractive. Standards and falls are a clear, amber yellow. 25c each, $2.50 per doz.

NOTE: We are one of the few Nurserymen in the United States who prepay transportation and charge no more for our stock.

Peonies

Avalanche. Late, pure white with delicate pencelliings of carmine. 50c each, $5.00 per doz.

Courrone D’Or. White with a blotch of red in the center around which is a halo of yellow. Immense, ball-shaped bloom. 50c each, $5.00 per doz.

Delicatissima. Color is dainty lilac-rose. The large double blooms are freely produced on tall, strong stems; fragrant. 50c each, $5.00 per doz.

Felix Crousse. A leading red peony. An exceptionally striking kind, with large, double, ball-shaped blooms. Extra fine in every way. 50c each, $5.00 per doz.

Festiva Maxima. For over fifty years this has been the standard for perfection in peonies. The immense, perfectly double flowers are pure snow-white, with a beautiful flake of carmine in the center. 50c each, $5.00 per doz.

Grandiflora. Bright sea-shell pink; overlaid with delicate lilac and salmon-pink—an enchanting color. 50c each, $5.00 per doz.

Mad. Lebon. Valuable late red. Flowers ball-shape, very rich, cherry-rose, 50c each, $5.00 per doz.

We Cut our Scions for Budding from Fruiting Trees
California Privet. A vigorous-growing variety, of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge-plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right from the bottom, sending up, many strong shoots. The leaves are a rich green and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. This is especially the case if the hedge has attained some age and has frequently been trimmed. Though it is a very strong grower, it can be kept to a low size by frequent trimming. Where a close, compact hedge is desired we recommend California Privet. Should be planted about six to eight inches apart in double rows and the rows fifteen inches apart, to give best results.

2 Year Strong Plants, well branched, 18 to 24 inches
.20 $1.25 $ 5.00 $45.00
2 Year Strong Plants, well branched, 2 to 3 Feet
.25 1.50 6.00 55.00

Barberry Thumbergii. A pretty plant of dwarf habit from Japan. Very graceful and its foliage turns to a beautiful red in the fall. Strong plants, 2 to 3 feet, well branched, $4.50 per 10, $35.00 per 100.

Norway Spruce. There is no evergreen so largely planted as the Norway Spruce. It is indeed a tree possessed with great beauty at all seasons of the year, but particularly in winter when its branches are weighed down with newly fallen snow. This spruce is a rapid grower and is often used as a lawn fence between village or city lots. Norway Spruce can be planted most effectively in groups on the lawn, imitating nature, planted without any particular order, but far enough apart to give each tree an opportunity to expand itself in its beauty.
